Summary

Front-End Developer with experience in building and optimizing user interfaces using React.js, Redux, and TypeScript. Skilled in developing ERP systems, dashboards, and e-commerce platforms, with a strong focus on responsive design, state management, and seamless API integration. Proficient in modern frameworks like Next.js, PrimeReact, and Tailwind CSS, ensuring high-performance and scalable applications. Passionate about delivering intuitive user experiences and collaborating with cross-functional teams to create efficient web solutions.

Professional Experience

2023/07 – present
Cairo, Egypt

Front End Developer (React js)

Active 4 web 📄

- **Developed User Interfaces:** Built and maintained React components for the accounts tree and human resources modules of the E.R.P. system.
- **Enhanced System Features:** Designed and implemented UI elements for branches, warehouses, journals, sales, and settings in the E.R.P. system.
- **Ensured Responsive Design:** Created responsive and intuitive layouts to improve user experience across different devices and screen sizes.
- **Implemented State Management:** Utilized Redux Toolkit and Redux Query for efficient state management and data fetching.
- **Integrated with Back-End Services:** Collaborated with back-end teams to integrate REST APIs, ensuring seamless data flow and functionality.
- **Participated in Business Analysis:** Contributed to discussions on business requirements and accounting processes to align system features with organizational needs.

Education

2023/03 – 2023/06 Cairo, Egypt	Front-End Web & Mobile Development Track <i>Information Technology Institute-ITI</i> Joined the intensive training program of the Information Technology institute in the field of Front-End Web(React -Angular) & Mobile Development (React Native)
2016/09 – 2021/01 Helwan, Egypt	BSC Computer Science and Information System <i>Faculty of computer science and information system-Helwan</i> Grade : good

Projects

Namar (ERP System) & Dashboard | Active 4 Web [🔗](#)

- **Developed Comprehensive UI Components:** Created and maintained React components for diverse modules including accounts tree, account models, journals, payments, and receivables.
- **Implemented Human Resources Features:** Built interfaces for managing employees, employee settings, worker permissions, attendance, sections, and shifts.
- **Designed Branch and Warehouse Modules:** Developed features for managing branches, product categories, warehouse stock, and inventory management.
- **Enhanced Sales Functionality:** Implemented order sales, fast sales with scanner integration, and bill sales functionalities to streamline sales processes.
- **Built Purchase Management Interfaces:** Created components for order purchases and bill purchases to facilitate efficient procurement processes.
- **Developed Dashboard and System Management:** Designed and implemented a dashboard for real-time system monitoring and management, providing insights and control over various system modules and metrics.

Amazon clone & Dashboard | ITI

- **Product Catalog:** Developed a user-friendly interface for browsing products with detailed pages and search filters.
- **User Authentication:** Integrated secure user login and registration, allowing account management and order history access.
- **Shopping Cart:** Created a dynamic shopping cart for adding, removing, and updating product quantities with real-time updates.
- **Order Processing:** Built a checkout process with shipping, payment, and order placement functionalities using a mock payment gateway.
- **Responsive Design:** Ensured the application is responsive and optimized for both desktop and mobile devices.
- **State Management:** Utilized React's Context API and hooks for efficient state management and component reactivity.
- **API Integration:** Simulated back-end interactions with mock APIs for product data, user authentication, and order management.
- **Search and Filtering:** Implemented search and filtering features to help users find products based on keywords, categories, and price ranges.
